

At Towngate Primary Academy it is our intention that all children are able to achieve their **full potential** and develop a **love for learning** as they progress through the school.

In the Early Years we **strive** to give children the best possible start to their learning journey by offering a **safe, secure environment** that is rich in providing **early experiences** to every single child. We are a team of **passionate professionals** that provide children with unique learning experiences through **thoughtful planning**, **varied and enjoyable** experiences and **fun** activities that support **key learning**.

Offering children **excellent, high quality** education is at the heart of everything we do. **Relationships** with parents are key to a child's **success** and these are quickly established in the Early Years. Children and parents feel **supported** and part of our **team**, **trust** is established on both sides and we strive to **work together effectively**.

Staff work **effectively** as a team to teach and support children through focused tasks and through the provision, ensuring that **expectations are high** and **challenge** the children's understanding. This is essential to ensuring learning is **progressive and immersive**.

We aim to provide a **language rich environment**, which promotes a love of reading, writing and communication. We plan for all areas of the curriculum, and ensure these are embedded through the learning environment, allowing children to **access a range of learning opportunities**. The indoor and outdoor environment are of equal importance and enable the children to develop within all areas of the curriculum. Each offer their own **unique experience**; which staff support through **thoughtful interactions** and **questioning**. The children demonstrate their characteristics of effective learning, by exploring resources and new skills, **thinking critically** and being **willing to solve problems**.

We believe our children have the right to **achieve** in an environment, which **values** their **ideas, thoughts and feelings**, and with staff who understands that they are **individuals** and are able to guide and support them to **achieve their next goal**.
